AEROPRO

ENGINEERED FOR PROFESSIONALS

FEATURES & BENEFITS

Design: attractive, lightweight and comfortable composite grip handle.

Quality: designed with superior technology, manufactured with precision and high quality to deliver more power and a longer life.

Robust: heat treated components for increased durability, fully hardened planetary gears and reduced friction for extended tool productivity.

Warranty: 12 months manufacturer's warranty.

www.aeropro-eu.com

PNEUMATIC POWER TOOLS

SAFETY TIPS:

A few tips to increase safety awareness and help avoid accident and injury in the workplace.

(These are not a substitute to the AEROPRO safety/instruction manuals.)

VISUAL INSPECTION PRIOR TO USE

Conduct a visual check of the tool, including hoses and fittings for signs of damage/excess wear or defect parts. Ensure tool is fully oiled.

USE THE CORRECT ACCESSORIES

Always use recommended accessories with **AEROPRO** tools, e.g. never use hand sockets with impact wrenches. Always disconnect air supply prior to changing an accessory.

SAFETY WEAR

Always adhere to workplace safety workwear regulations. In addition when operating equipment always wear goggles and ear plugs as well as gloves, apron, helmet and dust mask when required. When working with materials that may produce harmful airborne particles, use other equipment such as dust extractors to control exposure.

MAINTAIN A SAFE WORKING AREA

Make other people aware of your working area and ensure they are kept at a safe distance. Manage your floor space keeping it free of trip hazards, trailing hoses, etc. Direct exhaust gases away from yourself and others, do not use in explosive atmospheres and always keep away from electrical wiring.

Pneumatic Power Tool Accessories

PNEUMATIC POWER TOOLS

AEROPRO
ENGINEERED FOR PROFESSIONALS

Ratchet Wrenches

- Designed with superior technology and manufactured with precision and high quality to deliver more power and a longer life
- Ball bearing mounted air motor produces enough power for most requirements
- Fully hardened planetary gears reduce friction for extended tool productivity
- Comfortable composite grip handle
- Ball socket retainer provides fast and easy socket replacement
- Heat treated components for increased durability
- Lightweight aluminium body
- Compact head design allows flexibility in tight areas
- Forward/reverse lever located behind the ratchet head for quick change of direction
- Side exhaust
- Recommended air pressure: 90 PSI

Air Impact Wrenches

- Twin hammer mechanism has two identical hammers that deliver an instantaneous balanced blow, reducing vibration and transferring more torque to the drive than any other mechanism on the market
- Provides more power and smooth balanced blows
- Screened filter air inlet keeps dirt and debris from damaging the tool
- Rear exhaust
- Recommended air pressure: 90 PSI

2 in 1 Air Nailer & Stapler

- Strong and lightweight aluminium die-casting gun body
- Multidirectional exhaust port directs air away from the operator and work surface
- Hardened one piece drive blade for professional application
- Teflon O-ring to protect the piston from wearing
- Tool free depth-of-drive adjustment for exact setting of nail head
- Adjustable knob for either sequential or contact firin
- Designed for Ga18 style nails and staples up to 50mm in length
- Includes nailer, wrenches, oil, operating manual and rugged carrying case

HVLP

High volume, low pressure (HVLP) spray guns are designed similar to conventional spray guns, the only difference being that unlike conventional spray guns, which operate under high pressure, HVLP spray guns operate at a much lower pressure.

- Offers a more accurate way of spray painting, with less chance of overspray
- Produces a more thick and consistent quality of paint finish
- Less pollution compared to conventional spray guns
- Consumes less materials down to minimising overspray

LVLP

Low volume, low pressure (LVLP) spray guns are designed to work similar to the HVLP gun but to consume less air than the HVLP and used mainly in more intricate spraying on smaller areas. Used in auto painting and spraying of furniture, etc.

- More intricate spraying
- Low volume of air is utilised to finely atomize paint creating a very smooth finish
- Increased prevention of overspray and material wastage

Spray Guns

- Stainless steel needle and nozzle to accommodate a variety of coatings
- Brass air cap and adjustable knob
- Includes adjustable fluid, pattern and air control
- Designed to provide equal atomisation and particle size for all kinds of surface painting
- Lightweight, ergonomic design and easy trigger pivot to reduce operator fatigue

Lite Air Tools

Key Product Benefits:

- Ergonomic design for comfort,
- Lightweight materials
- Ready for immediate use
- Comes complete with cleaning brush and hose tail piece

Key Product Features:

- Tank capacity: 750cc
- Operating pressure: 3 to 4 bar
- Air consumption: 4.2 to 7.1 cfm
- Nozzle size: 1.5mm
- Pattern width: 140 to 180mm
- Body and canister material: aluminium

AIR TOOLS

Impact Wrenches

Features:

- DYNA-PACT oil bath clutch
- One handed push button forward/reverse with four positive power settings
- Full power in reverse
- Compact and ergonomic with rubber handle
- 425ft-lbs (576Nm) of maximum torque in reverse

Benefits:

- Clutch delivers smooth operation and extreme durability
- Versatile and powerful tool ideal for all general repairs and maintenance applications

1/2" Super Duty

0219

CP734H

Tech Sheet 3071

Features:

- 3/4" impact wrench with ring retainer
- DYNA-PACT oil bath clutch
- Single handed reverse button with four power settings
- Comfortable handle grip

Benefits:

- General maintenance
- Smooth operation with DYNA-PACT clutch
- Comfortable use with low noise and vibration levels
- Good durability

3/4" Super Duty

0219

CP772H

Tech Sheet 60253

Features:

- Steel front cover and aluminium body
- One hand operation forward/reverse by either left or right handed users
- Easily adjustable for either right or left handed operation
- Three setting positions
- Length: 4.4" (112mm)
- Jumbo hammer

Benefits:

- Best power to weight ratio: 306ft-lbs (415Nm)
- Ultra compact
- Easy to use
- Durable

3/8" Compact

0219

CP7731

Durable and Powerful:

- Maximum torque: 1,250Nm in reverse
- Working torque: 102-786Nm
- Includes rechargeable torch

Features:

- 922ft-lbs (1,250Nm) of maximum torque in reverse
- Durable aluminium back housing
- Insulated and comfortable grip with rubber-injected composite housing
- Universal and durable twin hammer mechanism

Benefits:

- Maximise work efficiency with great power
- Most powerful 1/2" impact wrench in the range
- Extremely fast run down for quick work
- Reduced operator fatigue

1/2" Composite

0219

CP7748

Tech Sheet 60251

Features:

- 1" straight impact wrench with 6" extended anvil
- 1,920ft-lbs (2,600Nm) of maximum torque in reverse
- Pinless, closed, reinforced rocking dog impact mechanism
- Dual socket retention, hole and friction ring
- Ergonomic side handle
- Full teasing trigger
- Regulator with integrated forward/reverse, with three position power settings in both directions

Benefits:

- Highly efficient yet economical motor with durable reinforced clutch mechanism
- Durable impact wrench with great power for the toughest jobs on heavy vehicles

1" Heavy-duty

0219

CP7782-6

Tech Sheet 60196

AIR TOOLS

Drills

Features:

- Compact low profile head to get in to confined space
- Reverse valve for easy directional change
- High performance gearing for extended durability

Benefits:

- Compact angle head drill
- Operator control from start up through run down
- Ideal for drilling and screw driving in confined area

3/8" Angle Drill

0219

CP879

Tech Sheet 3074

Features:

- Fast and efficient at 2,900rpm
- Industrial quality Jacob's chuck
- Ergonomic grip

Benefits:

- Productivity and durability
- Maximise operator comfort
- Power suitable for many applications

3/8" Pistol Drill, Heavy-duty

0219

CP9285

Tech Sheet 3076

Ratchet

Features:

- 1/2" ratchet
- Compact head design
- Hardened gears

Benefits:

- Good durability
- Easy grip reverse for simple directional changes

1/2" Ratchet

0219

CP886H

Tech Sheet 60202

Riveters

Features:

- Compact size and composite body
- 3/16" maximum capacity
- Heavy pulling: up to 1,900lbs (865kg)
- Low vibration and low noise level
- Includes: 3/32", 1/8", 5/32" and 3/16" (2.4, 3.2, 4 and 4.8mm) nose pieces

Benefits:

- Broad applications coverage
- Durable, reliable and easy to service
- Maximise operator comfort

3/16" Riveter, Heavy-duty

0219

CP9883

Tech Sheet 3092

Features:

- Air riveter for general maintenance
- Compact size
- 3/16" maximum capacity
- For rivets in aluminium, copper and softer materials
- Heavy pulling: up to 2,200lbs (1,000kg)
- Transparent container with holes for quick release of rivet ends
- Includes nose pieces for rivets: 3/32", 1/8", 5/32" and 3/16" (2.4, 3.2, 4 and 4.8mm)

Benefits:

- Simple construction for easy maintenance
- Great for trailer panels, number plates, and any type of panels maintenance

General Purpose Riveter

0219

CP9882

Tech Sheet 60205

Grinders

Features:

- Keyless adjustable protective guard
- Aluminium alloy housing
- Helical bevel gear design
- 5" (125mm) wheel capacity
- M14 spindle thread
- 0.8hp (600W) governed motor
- Ergonomic side handle

Benefits:

- Suitable for general maintenance applications
- Lightweight but rugged housing
- Durability and performance

5" Angle Grinder

0219

CP9121AR

Tech Sheet 60204

Features:

- 3mm and 1/8" collets included
- Very low noise level – only 71dB(A)
- Good power/size ratio with 60,000rpm high free speed

Benefits:

- Extremely easy to handle, quiet and lightweight
- Ideal for tight access application

Compact Pencil Grinder

0219

CP9104Q

Tech Sheet 3084

Features:

- Powerful 0.8hp (600W) motor
- Adjustable protective guard and aluminium alloy housing
- Spiral bevel gears
- Ergonomic side handle

Benefits:

- Excellent for weld preparation and smoothing, rust removal, deburring and blending of steel, cast iron and aluminium
- Lightweight but rugged housing
- Durability and performance

4" Angle Grinder, Heavy-duty

0219

CP9120CR

Tech Sheet 3089

Features:

- Efficient and powerful 0.32hp (240W) motor
- Low noise level: 80dB(A)
- Easy access speed regulator
- Compact and ergonomic grip
- Rear exhaust
- 1/4" and 6mm collets included

Benefits:

- Maximised operator comfort
- Performance and power
- Increased precision for best operator control
- Ideal for confined access applications

Compact In-line Die Grinder

0219

CP9105QB

Tech Sheet 3086

AIR TOOLS

Sanders

Features:

- PSA sanding pad
- Insulated grip and lock-off throttle to prevent accidental start-ups
- Power regulator for precise control

Benefits:

- Excellent for blending and smoothing filler, feather edging and pre-paint preparation
- Operator comfort

Dual Action Sander

0219
CP870

Tech Sheet 3081

Features:

- Quick change belt replacement
- Adjustable sanding arm
- Handle exhaust and swivel air inlet
- Rubber moulded grip

Benefits:

- Excellent for paint removal, weld sanding, smoothing and rust removal in tight areas
- Operator comfort

Belt Sander

0219
CP9779

Tech Sheet 3083

High Speed Cutter

Features:

- Wheel diameter 2.7/8"
- Adjustable speed regulator
- Safety lever to prevent accidental start up
- Rear exhaust

Benefits:

- Ideal for cutting through composite, sheet metal, bolts, etc.
- Precise and safe control

High Speed Cutter, Standard Duty

0219
CP874

Tech Sheet 3095

Hammer Kit

Features:

- Heavy-duty pistol grip hammer
- Standard .401 round shank
- Internal muffler minimises exhaust sound
- Unique vibration damping
- Teasing trigger for slow start-up

Benefits:

- Maximise operator comfort and control
- Smooth operation
- Low vibrations to maximise productivity

Kit Includes:

- Four chisels
- One posi-lock retainer
- Heavy-duty case

Hammer Kit, Heavy-duty

0219
CP7110 KIT

Swivel Connector

The MultiFlex swivel is an ingenious multidirectional connector. Connect your tool and the hose will stay in the ideal position however much you and the tool move around. The MultiFlex bends and rotates 360° in all directions while the hose stays straight. It takes the effort out of working in those cramped spaces, the hose feels almost weightless and it reduces hose wear.

Features and Benefits

- Improved ergonomics; less strength is needed to move around tool and hose
- Reduced hose wear
- High flow capacity and low pressure drop
- Strong and durable for long lifetime

Working Temperature:
-10°C to +70°C

Maximum Working Pressure:
10 bar

Blind Riveter 3/16" Capacity

Features:

- Maximum rivet capacity: 3/16"
- Air pressure: 90 PSI
- Tool length and height: 271mm x 255mm
- Tool weight: 1.75kg
- Air inlet: 1/4" BSPP female
- Air consumption: 4.2 cfm
- Sound pressure: 73 dB (A)
- Sound power: 65 dB (A)
- Vibration level: 0.7 m/s²

Tool Balancers

Plastic coated steel wire.

0088	Kg	Length Metres
2021-0209	0.6-1.5	1.6
2021-0217	1-2	1.6
2021-0225	1.5-3	1.5
2021-2030	3-5	0.9
Tech Sheet 20433		

A complete range of balancers, capabilities from 0.4 to 14kg, available stroke up to 2.5m. To eliminate labour, to cut down idle times, to improve work quality, to reduce hose and cable wear and to avoid both damage to people and tools. For either bench or assembly line jobs, applications ranging from small tools to industrial guns and multiple screwdrivers.

Features:

- Stainless steel cable
- Auxiliary safety suspension
- Adjustable stroke-limiting device
- Adjustable capacity
- Polyamide thimble
- Rugged construction, cast aluminium body
- (Models 2-3) safety device against load dropping due to spring breakage (>3kg)
- Cable guide in anti-friction material
